

## MULTI-ACTION HEAD SERIES TRIPODS

These new tripods have the same "Multi-action" head (SH-707E), which allows easy operation with a single pan-tilt handle for Digital-SLR especially. It gives you the opportunity to pan and tilt simultaneously or individually and this permits you to take pictures at any desired angle. All legs (except for PRO 713EZ and PRO 614EZ) have grooves cut in to prevent spinning.

### Multi-action pan head SH-707E

Dual Axis Bubble Level  
Camera mounting screw U1/4  
Tripod mounting screw U1/4
